

Varsity Booters Drop Close Game to Harvard, 3-0

Crimson Stages Second-Half Rally to Triumph Over Tired Beavers

FRESHMEN LOSE BY 6-0

With a penalty kick by Harvard turning the game from an even fight into a defeat, the Technology soccer team bowed to the Harvard eleven last Saturday afternoon at the Crimson's home field.

The first half was a stiff battle, with neither team scoring, but with the Engineers giving the same sort of sterling performance that was the feature of their game with Yale last Saturday. During this time Jack Hamilton, who has consistently played exceptional soccer this season, shone at right full-back, while Harry Essley, a new member of the varsity, played beautiful ball at left half-back.

In the third quarter, a free kick as a result of a Technology penalty gave Harvard its first goal of the game. After the closeness of the first half, this goal considerably disheartened the M. I. T. booters, and the game began to lose the speed and sureness of the previous periods.

Harvard Better Conditioned

Harvard's advantage in condition and numbers began to tell in the last

APPOINT F. HYDE ASST. PROFESSOR

Was Recently Engaged in Army Construction Work on Mississippi

The appointment of Captain James F. C. Hyde, U.S.A., as assistant professor of military science and tactics was announced today at the Institute. Captain Hyde is a graduate of Colorado College in the class of 1916. The following year he entered the army as reserve officer, and was graduated from the Army Engineer School in 1926. In 1930 he completed the course of the Command and General Staff School at Fort Leavenworth, and in 1931 was graduated from the Air Corps Tactical School. Captain Hyde has recently been engaged in important army construction work on the Mississippi River near Rock Island, Ill.

PROF. TRYON WILL TRAVEL IN CANADA

To Deliver Addresses on "Trends in Modern Education"

Professor James L. Tryon, secretary of the committee on the graduate school, left yesterday for a two weeks' tour of universities and colleges in the Maritime Provinces of Canada, where he will deliver a series of addresses on "Trends in Modern Education."

In Nova Scotia, Dr. Tryon will visit Acadia University in Wolfville, St. Francis Xavier University at Antigonish, and in Halifax, Dalhousie University, the University of King's College, St. Mary's College, and the Nova Scotia Technical College. His itinerary also includes Mt. Allison University, Sackville, N. B., and the University of New Brunswick in Fredericton. In Halifax and St. John he will confer with educational leaders and groups of Technology alumni.

Professor Tryon was recently elected a member of the board of trustees of Westbrook Junior College, Portland, Me.

Lists of Students Are Posted for Correction

In order that the Directory of Students may be correct, proofs will be posted until October 21 in the following places: Main Lobby, Walker Memorial, and the entrance to Building 3 (near 3-173).

Registrar J. C. Mackinnon asks each student to examine the list and report any corrections or missing information on the cards provided. No corrections should be made on the proofs. The directory will be compiled from this list.

PHYSICAL EXAMS WILL CLOSE SOON

Field Day Dance Will Have Sammy Liner's Orchestra

Dean and Mrs. T. P. Pitre Are Invited to Chaperone Annual Affair

EVERYONE IS WELCOME

Sammy Liner and his both well known and popular orchestra will furnish the music necessary to trip the light fantastic for tired Freshmen, equally tired Sophomores, Juniors, Seniors, girls of all grades and sorts, and guests, at the annual Field Day Dance, which will be held on October 27. The dance will last from 9 until 2 o'clock.

Dean and Mrs. Thomas P. Pitre have been invited to be chaperones at the dance. Dr. and Mrs. Compton, Mrs. James R. Jack, Professor and Mrs. Hamilton, and Professor and Mrs. Ford will attend as guests.

(Continued on Page 4)

Freshmen Gain Capitals If They Win Field Day

THE TECH hereby announces that in the event that the freshman class is victorious on Field Day, the name of their class shall then be capitalized thusly, "Freshman Class." Until then or indefinitely they shall be only "freshman class." In doing so THE TECH adds another incentive for the freshmen to win Field Day.

COMMUTERS HOLD FIRST MEETING

Pres. Compton Will Address Over 120 New Men

President Karl T. Compton will address the first meeting of the combined clubs of the Technology Commuters Association this afternoon at five o'clock, in Room 10-250.

(Continued on Page 3)

Field Day Spirit Lags as Time for Event Draws Near

Briggs and Stockmayer Both Disappointed in Sophs and Freshmen

PLANS BEING FINISHED

Freshman Section Leaders Meet Today; Mass Meeting Also Scheduled

Prospects for a closely contested Field Day are slowly increasing as final plans of both freshmen and Sophomores are being rounded into shape. Spirit of the freshman class is slowly dropping, according to Walter H. Stockmayer, '35, president of the junior class, who is in charge of the freshman plans, while the Sophomore spirit is still almost non-existent, judging from the remarks of Philip Briggs, '35, president of that class.

Two Frosh Meetings Slated

Two freshman meetings are definitely scheduled, a meeting of section leaders today at five o'clock in Room 2-136, and a mass meeting of all the freshmen the day before Field Day. At the section leaders' meeting today the money collected for football uniforms will be turned in and any remaining business will be settled. Another mass meeting may be held

(Continued on Page 3)

Parts Still Open in "The Ivory Door"

Additional Tryouts for Milne's Play Will be Held Today in 2-190

Additional tryouts will be held today for the Dramashop's first play of the season, in Room 2-190, at 5 o'clock. Those who wish to obtain parts for study before this evening may obtain them by applying in Room 2-176.

The play, which will be produced in December, is *The Ivory Door*, by A. A. Milne. Last season the Dramashop presented the famous temperance melodrama, *Ten Nights in a Barroom*, and *The Pigeon*, by the late John Galsworthy.

Dramashop plays are under the direction of Professor Dean Mattison Fuller, who this summer directed the players of the Onteora Summer Playhouse.

Coaches Hedlund, McCarthy Speak at Dorm Dinner

Both Give Advice to Freshmen Regarding Athletics as Activities

Coaches Oscar Hedlund of track and Henry P. McCarthy of basketball were the principal speakers at the third dormitory freshmen dinner held last night in the North Hall of Walker Memorial. G. Kingman Crosby, '34, chairman of the Dormitory Committee, and Maynard A. Sayles, '34, chairman of the Dormitory Freshman Committee, were the other speakers.

Hedlund told the freshmen that next to education, the biggest thing at college is the connections one makes. He stated that, although Technology is not noted for headline athletic teams, a little competition will do no one any harm.

It was announced at the close of the meeting that the final dinner would be held next Monday.

SUCH TIMID SENIORS

STATISTICS are handed down to us by the *Technique* Board which throws significance on the camera shyness of the average senior classes at the Institute. During the past three years only seventy-five per cent of the class has posed for their *Technique* picture. Last year there was an increase of five per cent. The reason as suggested by *Technique* is that last year's class were a better looking bunch and knew it. The reason behind the increase probably was the realization that the space in the year book was valuable, for two reasons, commercially and as a memento of their four years at the Institute. To the prospective employer the picture and activity listing in the year book is impressive. To the grandchildren, granddad's picture back in 1934 will be the source of many a laugh.

A PRELUDE TO WHAT?

IS GERMANY justified in quitting the League? Is her act the act of a wronged nation which can no longer hope for justice, or is it another prelude to international chaos?

There is no doubt that the Treaty of Versailles specifically stated that Germany was to receive arms equality after an undefined lapse of time. There is no doubt that no nation made one voluntary step to give her that equality. Considering the provisions of the treaty and the explicit actions of the European world powers, Germany was entirely justified in her original demand: either disarm to our limit or let us arm to yours.

Her demands ignored, Germany has taken a step which has increased the dangers of a European war to such an extent that Lloyds' is giving odds of two to one that war will break out within eighteen months.

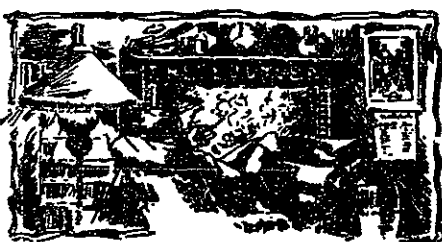

Here is a striking illustration of how far mass psychology and especially the fear of a single man can influence the actions of four world powers. It is probable that the world's statesmen would have taken some steps to lessen Germany's irritation were it not for her present chancellor. His principles, his avowed aims, and certain of his actions have thrown doubt on his willingness and ability to keep the peace.

The love of regimentation and the honor traditionally given to the military man are marked in most of the central European nations. They seem almost to be racial traits. Couple this with the depressing economic conditions still existing in Germany, and the massed frenzy which Hitler can direct is explainable.

At present the German people still have strong faith in economic recovery through the Hitler regime. If they are disappointed, as they probably will be, if conditions grow gradually worse as they show signs of doing, Hitler may allow himself as a last resort to become involved in war. History has many parallel cases.

The danger of secret re-arming is small. Germany could manufacture large quantities of small arms, some light artillery, and perhaps even heavy guns in secret. She could undoubtedly increase her supply of poison gases. But to construct a navy or an air fleet in strict privacy is an engineering feat beyond the capacity of any nation.

There remains the greater danger of open re-arming. Prompt drastic international action could nip such a plan easily, but in light of the jealousies and mutual fears of the world powers such a course is doubtful. The League has demonstrated its impotency when dealing with a strong power. The other alternative is an armament race which would lead only to calamity.

Advt.

It is to be observed, if one wastes the time necessary to look at the bulletin boards, that the Boat Club is very desirous of your company at some dance or something, at one dollar and fifty cents a throw. Don't forget to bring your dollar and a half.

It seems to us that this is more or less like the motorman's holiday. We should think they would be tired of pushing those old tubs around the boathouse without changing the scene to Walker.

Recipe

Although we do condone this state of mental disequilibrium which might be called "Harvardophobia," still and all there are occasions when the obvious forces itself upon us.

In today's mail comes an excerpt from the Philadelphia Public Ledger of Friday, July 7, 1933. It is taken from the women's page and consists of a recipe for some concoction called "Harvard Peaches."

We quote verbatim:

Harvard Peaches

6 peaches
6 slices stale cake cut in rounds
1 cup crushed raspberries
1/2 cup cooking sherry

Just what the sherry is doing in there, we can't say.

Colloquia Notes

We imagine that a Professor's life must be an affair of some complication, now that it takes an expert to handle a lecture room, particularly if the room is large, the automatic gadgets many, and there is any amount of real switching to be done.

We do wish to say, however, that we have yet to see a Technology man nonplussed. Perhaps because of the prevalence of our conveniences. However, things at Harvard are different.

Only yesterday we attended a colloquium on something too technical to bother about, in the Jefferson Lecture room of the Jefferson Physical Laboratories. It was plain to our discerning eye that things were too bright and shiny up there by the lecture table to fit with the rest of the room.

Everything went fine until about the second time the Doctor tried to turn off the lights, and fix the lantern to show slides. The lights went out all right. Then the ones in the back went on. No, that didn't work. The Doctor fumbled with the buttons under the edge of the lectern.

Next, the curtains started to go up, then they descended again, to the tune of vague mechanical rumblings. Finally all the lights went out and people felt relieved.

This just goes to show, however, that people who live in Harvard lecture rooms should hire a glass house. —it's easier to figure out.

AS WE SEE THE MOVIES

RKO KEITH

"The Power and the Glory"

Spencer Tracy and Colleen Moore carry through a tragedy unrelieved by any of the usual Hollywood efforts for mass appeal. It is a story with a philosophy foreign to the day, that material wealth and possessions do not spell "happy ending," and no mawkish attempts at the "happily ever after" type of denouement have subtracted from its strength and logic.

Curiously enough, the closing scenes are badly overacted by the hero, at least from this point of view. However, this defect does not appreciably mar one of the strongest plots we have seen on the screen.

As the balancing feature, a Disney

MOTHER OF PRESIDENT OF INSTITUTE HOLDS DEGREE

Doctor of Laws Awarded by Western College for Women to Mrs. Ophelia Compton, Mother of Three Famous Sons and a Daughter

gree of Doctor of Laws, presented by the Western College for Women, is Mrs. Otelia Compton, 74, mother of Karl T. Compton, President of the Institute. The degree was not awarded to her because she was learned in the law nor because of any gift to a university building fund; she received it because she is the mother of three distinguished sons and a splendid daughter. She got it because one college, at least, believes that a distinguished career as a mother merited its honors.

Mrs. Compton is the wife of Professor Elias Compton, for more than 40 years a member of the "aculty of Wooster College, and for several years its dean. From the small mid-Ohio town of Wooster she sent into the world three sons and a daughter. And they are now:

Karl Taylor Compton was for a long time professor of physics at Princeton, and now for several years has been president of the Institute. At the present time he is working in the realm of ultra-violet spectroscopy, and spends several hours each week in the laboratories of the Institute. He has written over 100 pamphlets on various phases of the field of physics, and is considered by many as one of the outstanding men in this work in the country.

Arthur H. Compton, the second son, became professor of physics at the University of Chicago, and a few years ago won the Nobel prize in physics. His debate with Dr. Millikan of Chicago on the nature of cosmic rays was the outstanding feature of the recent meeting of the American Association for the Advancement of Science.

The third son, Wilson Compton, became an outstanding lawyer and economist in Washington, D. C. The daughter is the wife of President Charles H. Rice of Ewing College, Allahabad, India.

"Motherhood Is Its Own Career"

"Motherhood is its own career; none is superior to it. It is woman's greatest privilege, responsibility and challenge." This is Mrs. Compton's comment to women who seek to mix career and motherhood, or those who choose a career other than motherhood.

"It took me ten years to work my way through college, since my family

production, of exquisit cleverness and humor, titillates the senses. This is a modification of the nursery tale of the "Three Little Pigs," and done in the usual brilliant manner of this modern Lewis Carroll. The title stands at "Who's Afraid of the Big Bad Wolfe?"

Other features are "A Forced Response," a Culbertson picture, and Mr. and Mrs. Jesse Crawford at the organ console.

Technology Dames Extend Invitation

The Technology Dames are extending a cordial invitation to the wives, mothers, and sisters of all Institute men to attend their meetings, lectures, and teas. These are held on the first and third Mondays of each month, in the Emma Rogers Room, located in Building 10.

fortunes were swept away in the inflation period following the Civil War," she recalls. "But to finish and secure my degree, no matter how long it took, was my only thought."

"That's how I felt about raising my family. I felt nothing was too hard or too much of a sacrifice to achieve the kind of children I wanted to send out into the world."

Address Delivered by Arthur Compton

Western College felt such service should be recognized. And this winter it conferred the degree of Doctor of Laws on Mrs. Compton, "to mark its pride in Mrs. Compton's achievements as a wife, a mother, friend of youth, and a servant of the church." The address of the day was delivered by Arthur Compton, and his family joined with her alma mater in honoring a mother.

Mrs. Compton feels that rearing splendid children is a job in itself. "I didn't have time for many things outside the home when they were little," she says. "I was unwilling to leave them to nurses, and feel that the same rule holds good today. We can't live our children's lives, but we can be ever near to guide them. We must constantly discipline ourselves if we are to train children right."

SPORTS COMMENT

The basketball schedule has not been announced yet by Manager Gutleben, but we understand that it will be ready for publication very soon. It would have been ready long ago except for certain difficulties caused by the dropping of the sport by certain of the schools originally scheduled. For the first time in a number of years the Engineers will not play Newport Naval Academy, usually the initial game of the season. The opener will be with Brown and will not take place until January 6, after Christmas vacation. There will be another game with Brown later on in the season and there will also be two games with Tufts.

We see by the Boston papers that a number of graduates and undergraduates of the Institute have been doing well in amateur track competition around this part of the State. Not the least of these is Jack Kearns who once walked off with the New England Intercollegiate two-mile title. In the Scotch games last Thursday Jack ran a thrilling race to beat Brendan Moynihan, former Boston College star, over that distance. Mort Jenkins was good for a strong second in the 5000-meter event, being led to the tape by Tom McDonough, an Olympic performer. In the broad jump Stanley Johnson, who broke the freshman record in that event last year, won the junior sectional title, and was followed by Tom Brown, another sophomore.

The indoor baseball league of the dorms has gotten under way already and several games have been played. Bemis, Runkle, and Hayden are leading with one win and no losses apiece. Munroe occupies the middle position with one win and one loss. Wood has played only one game which it lost. And poor Atkinson stands at the bottom of the list with two defeats. The best style was shown by Bemis in defeating Atkinson, 24-5. Runkle looked good in winning from Munroe, 17-4. In its second game Atkinson put up a good fight at first, but a six-run rally by Hayden in the fourth inning against the offerings of southpaw Ed Helwith caused a final 12-11 downfall. The showing has been very good this season in view of the early hour of the contests which take place at or about seven-thirty in the morning.

For the first time in the history of technology rowing, there are four heavy varsity crews out for fall practice. Bill Haines is going about the business of turning out a good crew in a way that should cause some anxiety in the Crimson boathouse. Not only does he carefully coach the crews in their early morning workouts, but he also spends a good portion of each day taking men out two by two in "The Tub," a two-man wherry built to carry a coxswain.

Hedlund Expects Stiff Opposition in Saturday Meet

Varsity and Freshmen Runners Chosen to Face Rhode Island State

In preparation for their meet with Rhode Island State Saturday, Coach Oscar Hedlund's varsity and freshmen cross-country candidates ran through time trials at Franklin Park last Saturday afternoon. Captain Bob Mann, Johnny Barrett, and Mort Jenkins led the varsity runners over the five-mile course, while over the three-mile course, Maddock led the freshmen, followed by Guerke and Cooper.

Although this week's meet will be the first of the season for Technology, Rhode Island has already participated in two runs. Coach Hedlund expects stiff opposition, since Arnold and Cotter of the Staters were among the members of last year's team, which took fourth place in the N. E. Cross-country Championships.

The members of the varsity selected for the Saturday meet are: Captain Mann, Barrett, Jenkins, Talbert, Nichols, Blair, Ranger, Greenwood, Fitch, Denton, Hain, and Taplin.

The freshmen chosen are: Maddock, Guerke, Cooper, Matthews, Roberts, Robbins, Haskell, Vogel, Moffatt, and Oakes.

PHYSICAL EXAMS WILL CLOSE SOON

(Continued from Page 1) advised to do so immediately. After November 1st there will be a charge of five dollars for each examination. The disadvantage of waiting until late to make an appointment lies in the fact that if a re-examination should be necessary and could not be performed until after November 1st the five dollar fee would be imposed.

In view of the fact that a physical fitness card is prerequisite for any competitive sport, all those who intend to go out for a sport and who have not yet signed up are left but scant time to arrange for an examination. The deadline for freshman sports sign-ups is noon, October 20. If a student signs up for a competitive sport and cannot show his physical fitness card he will be automatically assigned to the physical training classes.

Friday Is Limit for P. T. Substitution Signups

Those freshmen who desire to substitute some sport for their required Physical Training had better do so quickly, for their opportunity will end promptly at 12 o'clock noon this Friday, October 20. In the past, a majority of the freshmen have usually preferred to devote three hours a week to some pleasurable as well as beneficial sport, rather than spend two hours a week in the regular calisthenics classes. Every sport at the Institute but soccer, hockey, and rifle is recognized as a substitute for P. T. All freshmen still desirous of signing up should do so at H. P. McCarthy's office on the third floor of Walker Memorial, before noon this Friday.

Freshmen Take Handicap Meet

First Year Men Sweep All But One First Place; Few Sophomores Out

Showing strong class spirit, the freshmen took the majority of places in the first fall handicap meet at Tech Field Saturday. Most of the participants were Sophomores and freshmen, preparing for relay trials this week.

Three events were held, with the first-year men sweeping the 75-yard dash, and taking all but one place in the 150-yard event.

75-yard dash, handicap—Won by Houghton, '37 (seven yards); second, Nygard, '37 (seven yards); third, Lipnick, '37 (three yards); fourth, Adams, '37 (eight yards); fifth, McLellan, '37 (two yards). Time—8% seconds.

150-yard dash—Won by Sabi, '37 (eight yards); second, McLellan, '37 (four yards); third, Wilkes, '37 (two yards); fourth, Greenlaw, '36 (scratch); fifth, Nygard, '37 (five yards). Time—16% seconds.

Discus—Won by Graham, '36 (scratch), distance, 116 ft 8 in. Second, Kinraide, '37 (thirty feet), distance, 114 ft. Third, Runkel, '37 (twenty-five ft.), distance, 112 ft. 2 in.

Varsity Booters Drop Close Game to Harvard, 3-0

Crimson Stages Second-Half Rally to Triumph Over Tired Beavers

FRESHMEN LOSE BY 6-0

(Continued from Page 1) quarter, and a shot by Grover bounced off Kaiser's hands for the second tally of the game, adding to the discouragement of the Beavers. Soon after, Stork tallied the Crimson's third and last point, with a long shot, which was clearly the finest goal of the contest. The game ended with Technology trying desperately to score, but unable to summon a strong enough rally.

In their opening game on the Coorfeld, the M. I. T. freshmen booters made up of mostly inexperienced men, were vanquished by the Dean Academy eleven, 6 to 0.

Saturday's line-ups:
M. I. T. Harvard
Kaiser, g.....g., England
Forsburg, l.b.

l.b., Gummere (Stent)
Hamilton, r.b.....r.b., Wemple (Capt.)
Essley (Waram), l.h.b.....l.h.b., Vincen
Hansen (Capt.), c.h.b.....c.h.b., Dorman
Hetzel (Bemis), r.h.b.
r.h.b., Morrill (Streeter)
Chang (Ballard), o.l.

o.l., Manheimer (Baxter)
Winiarski (Hamilton), i.l.....i.l., Stork
Kron, c.f.....c.f., Grover (Motley)
Deleda (Sanchez), i.r.....i.r., Clos
Brockmann, o.r.

o.r., Baxter (Willets) (Dawson)
Score: Harvard, 3; M. I. T., 0.
Goals: Wemple, Grover, Stork.
Referee: R. B. Mills. Linesmen: Johnson, Post.

TECH SHOW WILL HEAR PROF. GREENE

James Donovan Also to Speak at Smoker; Society's Office Moved

Prof. William C. Greene and James Donovan, of the Tech Show advisory board, and Paul Lappe, '34, president of Masque, will be the speakers at the Tech Show Smoker at 5 P.M., Fri., Oct. 20, in the North Hall of Walker Memorial.

Eugene S. Clark, '34, author of last year's music, will entertain. The program of the year's work and an outline of the various departmental activities will be presented.

The Tech Show has moved its new office on the third floor of Walker Memorial in the recently remodeled handball courts. Work in the business department will begin immediately after the smoker. Tryouts for the chorus will be held early in November.

Cigarettes, cider, and doughnuts will be served at the smoker.

MEETING OF A.S.R.E. THURSDAY EVENING

The American Society of Refrigeration Engineers will hold its first dinner meeting of the year in the Grill Room of Walker Memorial Thursday evening at five o'clock. Mr. E. R. Ryan, chairman and secretary of the Frigidaire Corporation, will be in charge. About forty guests will be present.

COMMUTERS HOLD FIRST MEETING

(Continued from Page 1) Over 120 new men will be present at the meeting, at which plans for the fall season will be described and local leaders will be introduced.

Following this initial meeting a rally for freshmen commuters will be held next Tuesday for the purpose of acquainting the new men with one another, and helping them choose nominees for the freshman class elections, which immediately follow Field Day. Although electioneering at the polls is prohibited, the freshmen will have the opportunity to choose a capable nominee at this meeting.

Scene During First Half Harvard Soccer Game

Chang, Technology outside left, has the ball. Engineers lost, 3-0.

Jungle Vacation to be Described to Faculty Club

Two Members of Staff to Give Illustrated Talk Next Week

"A Vacation in a South American Jungle," will be the topic discussed by William P. Allis and Julius A. Stratton, members of the staff of the Department of Physics at the Institute, at the Fall Dinner Party of the Technology Faculty Club next Tuesday in Walker Memorial. President Karl T. Compton will also speak to the club.

Allis and Stratton sailed to Guayaquil, Ecuador, and travelled in the interior of the country. They also visited the capital of Ecuador, Quito which is practically on the equator. The talk will be illustrated by pictures of the regions visited.

C. E. Society Presents Movies at First Meeting

Showing three reels of motion pictures of the construction of the Conowing Dam, the second largest hydroelectric in the United States, the Civil Engineering Society will hold its first meeting of the year this afternoon in Room 10-250 from 4 to 5 o'clock.

Pictures taken at Technology's summer surveying camp at East Machias, Maine, will precede the feature film. John G. Brunner, president of the organization, invites everyone to attend today's meeting.

MENORAH SOCIETY CONDUCTS DANCE

The Technology and Simmons Chapters of the Intercollegiate Menorah Society will hold a joint meeting this evening in the North Hall of Walker Memorial at 7:45 o'clock. Professor Norbert Wiener of the Mathematics Department will be the principle speaker.

Later in the evening there will be dancing, and refreshments will be served.

INFIRMARY LIST

Ulisses Consuegra, '37

FIELD DAY SPIRIT LAGS AS TIME NEARS

(Continued from Page 1)

by the Sophomores, but this is not definite.

Both Stockmayer and Briggs are disappointed in the spirit being shown by the classes. Stockmayer stated that the attendance at tug-of-war practice had dropped from over thirty to only fourteen, and pointed out that twenty-five were needed to make a team. However, the relay race seems slated to be a freshman victory, for according to Track Coach Oscar Hedlund "at the present time it looks as though the freshmen will win the relay."

Wednesday, Oct. 18

5:00 P.M.—Combined Professional Society Meeting, Room 5-225.
5:55 P.M.—Christian Science Organization Meeting, Room 10-200.

Thursday, Oct. 19

5:00 P.M.—Banjo Club Rehearsal, East Lounge, Walker Memorial.

MUSICAL CLUBS SEEK NEW MEN

Candidates for Management Are Desired by Publicity Manager Woolf

Having almost completed the campaign for new talent in their musical section, the Combined Musical Clubs announced yesterday through their publicity manager, Ralph B. Woolf, '35, that at present there are openings in their management staff for freshman and Sophomore candidates.

"The management of the clubs presents to an individual an opportunity to become well versed in any particular phase of management," says Woolf. "Any freshman or Sophomore student who would like to partake of some of the work and play of the Musical Clubs kindly come to the office of the management on the third floor of Walker Memorial any night between 5 and 6 o'clock."

STUDENTS' CLUB CONDUCTS DANCE

Affair in Walker Was Attended by Foreign Students of Greater Boston

To create and foster a spirit of good will and understanding between foreign students who are enrolled in colleges of Greater Boston, the International Students' Club held an informal dance in the North Hall of Walker Memorial last Saturday. The affair, which lasted from 8 o'clock to midnight was attended by more than thirty-five couples. Varney's Orchestra furnished the music for the festivities. Mr. James B. Watson, director of the club, and his wife Mr. and Mrs. Kenneth Pohlmann of Pittsburgh, and Mrs. Amelia Lawson of Dedham, served as chaperons at the dance. The club plans to hold a series of monthly socials or dances.

Recovery Board Will Hold NRA Institute Here

Effects on Labor, Industry, and Social Conditions Will be Discussed

The Massachusetts State Recovery Board will hold its Junior NRA Institute here early next month, at the invitation of President Compton. The effects of the NRA on labor, industry, and social conditions will be discussed.

The institute will open by a luncheon, which will be followed by a seminar. Stanley King, president of Amherst College, will probably occupy the chair. College presidents and deans from all over the state are expected to attend.

FIELD DAY DANCE WILL HAVE SAMMY LINER'S ORCHESTRA

(Continued from Page 1)

Dances Famed for Originality

The Dormitory Dance Committee has made the arrangements for the dance. The committee is known nationally, even internationally, for its original and novel dances. Last year, people in Australia heard of the dance in which the intelligence quota of the girl controlled the admission price. *Time* contained an article describing the dance in which the weight and the color of the hair of the girl fixed the entrance fee according to formula.

Open House in the dorms will reign during Field Day, from the hour of 1 until 11 o'clock. This custom, which has prevailed for many years, permits the friends of the dormitory

Watch and Ward to be on Hand at Boat Club Dance

Posters announcing a formal dance to be held in Walker Memorial by the Tech Boat Club on November 5 were posted late yesterday throughout the Institute buildings. An alert reporter from THE TECH discovered the interesting fact that November 5 falls on a Sunday, the dance being therefore scheduled for an abrupt interruption by the famed Watch and Ward Society. Or are Sunday dances permitted under the N.R.A.?

residents, both male and female, to inspect the dormitories.

Everyone will be welcome at the Field Day Dance. Although they are given chiefly for the benefit of dormitory men, many fraternity men and commuters have attended these affairs in the past. The dance will inaugurate a series of six.

TECHNIQUE PHOTOS TO BE TAKEN SOON

Seniors Should Make Appointments Week of Oct. 23

Seniors who wish to have their photographs appear in Technique should arrange to have them taken by making an appointment during any lunch hour of the week of Oct. 23, in the Main Lobby.

This is the only chance for Seniors to have the photograph taken, and the price is as usual one dollar.

In the last three years no senior class has had individual pictures of more than 75 per cent of its members in the Technique.

Dr. Hunsaker Will Address Graduates

Phases of National Recovery Act Will be Subject for Discussion

Dr. J. C. Hunsaker, head of the department of Mechanical Engineering, will speak on various phases of the National Recovery Act at the Graduate Club meeting at 6 o'clock tomorrow, in the North Hall of Walker Memorial. Dr. Hunsaker was one of Gen. Hugh S. Johnson's close associates in organizing the NRA last summer.

All members of the graduate house, graduates living in dormitories, and graduates who applied for admission to the dormitories are to attend. Dean Goodwin of the graduate school and other members of the staff will be present.

This meeting will be the second of the regular weekly meetings to be held by the club. At the first meeting last week President Compton addressed the club on the work of President Roosevelt's Scientific Advisory Board, of which he is chairman.

PLANT ENGINEERS TO HOLD DINNER

Thursday evening at five o'clock the Plant Engineers Club will hold a dinner in the Faculty Dining Room of Walker Memorial. About twenty-five guests are expected. The dinner will continue until nine o'clock. Mr. W. S. Baldus is in charge of the gathering.

According to Professor Adendorf, one is in a better condition for learning when he is asleep than when awake.—*The Akron Buchtelite*.

*I'd take this one
anywhere!*

"I'VE SWUNG many a stick and I know how to spin 'em.

"I've smoked many a cigarette and I know how to taste 'em.

"Chesterfields are milder—they taste better—and man they do satisfy!"

Chesterfield
the cigarette that's Milder
the cigarette that TASTES BETTER
